

LCDX Single Port Polishing System P/N LCDX POL KIT

Specially Designed for Polishing LCDX Connectors

This unique fixture is design to hand polish LCDX connectors in low volume, prototyping or repair situations. It uses Domaille Engineering's patented LCDX ferrule holding system and is available in a flat configuration. The kit includes hand puck, rubber pad (90 DUR), containment disk and pry tool.

Benefits at a Glance:

- EZ loading with patented LCDX clamping system
- Utilizes containment disk to hold rubber pad for ease of polishing
- Available for LCDX UPC connectors
- Spring loaded for ease of applying pressure
- Ground carbide feet for accuracy and durability
- Torque wrench available for repeatable process

**Manufactured to Domaille's
exacting high quality standards**
