

Fiber Optic Microscope
OPTISPEC[®]
DE2600-D1

Domaille Engineering is proud to announce our new OptiSpec[®] DE2600-D1 Digital microscope.

The DE2600-D1 is designed to provide a quick view of the entire MT end face with special blue lighting for enhanced end face particle detection. Our DE2600-D1 accommodates all of the standard PC and APC connectors including the entire MT connector Series.

Adapters
sold separately
