

## ABRASAVE® MTRJ-EZ Fixture Line P/N PFA-MTRJ-EZ-12 or PFC-MTRJ-EZ-24

### Specially Designed to Minimize Protrusion Height Variation

The Domaille Engineering AbraSave® MTRJ-EZ is a 12 port, 5" fixture equivalent to a regular MT-EZ, but designed to accommodate the Mini-MT ferrule. AbraSave® fixtures are specially designed to minimize protrusion height variation while maximizing yields and polishing film life. The patented MT-EZ drop, lock and polish system drastically reduces loading and polishing times.

### Benefits at a Glance:

- Designed to minimize protrusion height variation in MTRJ connector polishing
- Patented MT-EZ loading system
- Circumferential clamping surface on ferrules combined with dual direction torque wrench eliminates clamping distortion
- Cable management options available
